Team Group : bobo

Work Breakdown Agreement

Purpose:

1. To decide who will be responsible for producing the test suite
2. Who will be testing and reviewing the test case / deliverable
3. Making sure the dates by which the deliverable, test, or review is completed
4. Both party agrees to the conditions before starting the assignment

Team Member:

Tan Kai Gin (29940834)

- Provides the necessary function for the calculation which the other team members would be able to use to do the calculations.
- Responsible for including checking inside the Calculator Form class
- Ensures that all test cases are included and keep check of the continuous integration to make sure that no pushes create new error.
- Ensuring the logic of the code is flowing correctly and if possible, not much error should occur unless it's a critical error.

Chaeyeon Oh (30897378)

- Does some of the test casing for the methods created inside the Calculator method
- Provides logic to the code as well as providing suggestion to improve the code and shorten/beautify the code to make it more presentable
- Came up with suitable test suite to fit the test cases created
- Responsible for time tracking ensure that everything is kept up to date and avoid commit collision between team members

Rickie Cheong Jun Weng (30897580)

- Does some of the test casing for the methods created inside the Calculator method
- Provides some logic to the code as well as API calls
- Came up with test suite suitable for the self-created test
- Responsible for writing the Testing strategies document
